Don't Be Shell-Shocked! Reptilian CPR 101 Webinar

Reptilian CPR (cardiopulmonary resuscitation) is often a topic for debate and certainly an anxiety trigger. How do you perform chest compressions in a snake? How do you achieve cardiac massage in a tortoise? How often should you ventilate a turtle? These unique patients possess distinct anatomies and physiologies that directly impact CPR guidelines. The step-by-step RECOVER CPR guidelines for reptilian patients, including basic and advanced life support, will help you navigate the challenges of reptilian CPR. This VetFolio live webinar will take place on March 4 at 12 PM ET and provide 0.5 hour of CE.

3/21 – 3/22

HiVE Midwest: Dedicated Event for Your Veterinary Support Team

NAVC HiVE events are personalized, focused professional development CE conferences catered toward veterinary nurses/technicians, practice managers, and support staff. HiVE events move around the country in order to be accessible to as many veterinary professionals as possible. The next event is slated to be HiVE Midwest in Covington, Kentucky, on March 21 and 22. Programming includes topics on team training, strategic problem solving, leadership, positive culture, finance, and more! Elevate your team's continuing education and utilization with unique, individualized HiVE conferences.
